Feagin Mill Middle Recycling Pays Dividends School Ranked Top 2% in Recycling

HOUSTON COUNTY, GA – For the second year, Feagin Mill Middle School is participating in FundingFactory, a program to raise funds by recycling printer cartridges, cell phones, laptops and small electronics. Feagin Mill Middle has been ranked in the top two percent of schools, ranked 221st out of 10,298 schools for their recycling efforts.

The FundingFactory program recycles items in return for a check or redemption points toward purchases. Feagin Mill sent in enough recyclable items to rank number nine of 456 Georgia participants. The school uses the earnings to purchase technology. Last year the school bought two slates to work wirelessly with interactive whiteboards.

Feagin Mill Middle Principal Dr. Jesse Davis encourages the public to recycle their cell phones, small electronics and ink cartridges by donating them to the school. “It’s great for our school and great for our environment,” exclaimed Dr. Davis. The FundingFactory recycles or remanufactures the items and reports its participants have prevented 21 million pounds of waste from being landfilled.

Feagin Mill Middle is located at 1200 Feagin Mill Road in Warner Robins. For more information about this program, visit: <http://www.fundingfactory.com/default.aspx>. For more information about Feagin Mill’s recycling efforts, please contact Dr. Davis or Brian Lewis, computer teacher, at 478-953-0430. Their e-mail addresses are: Jessie.Davis@hcbe.net and Bobby.Lewis@hcbe.net.
