

COMMUNITY RESOURCES

REFERRAL SOURCES

Compiled below is a list of sources who provide psychological and psychiatric services. This list does not represent a recommendation or availability of services. Please note that these individuals include counselors, social workers, psychologists, and psychiatrists. As a reference, LPCs, LCSWs, and LMFTs are “Licensed Professional Counselors”, “Licensed Clinical Social Workers”, and “Licensed Marriage and Family Therapists” (respectively) who provide therapeutic services; PhDs and PsyDs are typically licensed psychologists who conduct psychological evaluations and provide counseling services but do not prescribe medication. MDs are medical doctors who are typically psychiatrists and who are able to prescribe medication.
